OPEN TO WORK

Looking for a role in Web Development.

OVERVIEW

I am very eager to start a new role in Web Development, where I can build practical, user-focused applications and continue growing as a full-stack developer. To strengthen this path, I completed the HyperionDev Full Stack Web & Software Engineer bootcamp, working with HTML, CSS, JavaScript, the MERN stack, and Java, and later served as a HyperionDev Coding Mentor (July 2024–March 2025).

My background also gives me a strong data and mathematics edge. I hold an MSc in Space Physics (*cum laude*), which developed my research training, mathematical modeling ability, and scientific problem-solving skills. I subsequently spent approximately 3.5 years as a Data Scientist at Matogen Applied Insights, where I delivered a portfolio performance monitor and credit-loss model for a telecommunications client, a Power BI dashboard for agricultural nutrient distributions, and a grape harvest-date prediction model.

I currently lecture IT modules at Eduvos (Potchefstroom Campus), which keeps me close to software-development fundamentals, curriculum refinement, and continual learning. I am drawn to full-stack development because it combines clean interfaces, robust back-end logic, and analytical thinking. While fluent in Windows environments, I also work extensively in open-source ecosystems, particularly Linux 🐧

👉 Here is a [FrontEnd Demo](#) that showcases my skills in ReactJS, Express & SCSS 🔗

Also check out my [Expense Tracking App](#), which is a fullstack app I built using the SvelteKit Framework 🔗

EXPERIENCE

- | | |
|------------------------|---|
| 2025/04–Current | Eduvos IT Lecturer, Potchefstroom Campus
Lectured undergraduate IT modules spanning Web Development and E-Commerce, Object-Oriented Systems Analysis and Design, Python scientific computing, data structures and algorithms, machine learning, Power BI analytics, information systems, computer literacy, and applied mathematics for computing and robotics. |
| 2024/07–2025/03 | HyperionDev Code Reviewer & Student Mentor. <ul style="list-style-type: none">• As a Coding Mentor, I evaluated students' coding submissions for tasks and provided constructive feedback to enhance the quality, efficiency, and styling of their code. Additionally, I conducted live sessions to provide personalised guidance, helping students effectively tackle specific tasks and develop their programming skills.• Acted as an SME to refactor Task Contents for the course syllabus.• Conducted an onboarding session for newly-enrolled students on the LiveStorm platform.• Please see my full Academic Portfolio here. |
| 2022/12 | The completion of my own Japanese Language Studies book (typeset in ℒ^AT_EX), which took 4+ years. Without a doubt, this is the project I'm most proud of! |
| 2019–2022/07 | Data Scientist at Matogen Applied Insights . <ul style="list-style-type: none">• Built PowerBI Dashboard to monitor Nutrient Distributions of Farm Crops.• Built Tableau Dashboards for a Debt Counseling Company to closely track agent performance.• Interrogated the Nationwide Inpatient Sample (NIS) to determine factors influencing mortality rates in patients receiving orthopedic procedures. |

	- Built an AI Model to improve the accuracy of harvest-date predictions for grape cultivars. - Built a Portfolio Performance Monitor and Expected Credit Loss Model for a Telco Company based on Service Line Age Files and Bureau Data. Here are PySpark Libraries I translated from SAS. - Made a Python Algorithm to compute accurate Water Irrigation Schedules for Farm Crops based on telemetry readings and weather forecasts. This was to improve on the crude method of setting water irrigation parameters based on season of the year.
2017	Internship at the Centre for Space Research, Potchefstroom .
2011	Supplemental Instruction Leader for the 2011 Term in Mathematics (1 st year level).

A list of references can be provided upon request.

EDUCATION & TRAINING

2023/01–2023/09	HyperionDev Full Stack Web & Software Engineer Bootcamp (Student). - HyperionDev is accredited with the MICT Seta (ACC/2017/05/0005). This course bears 30 Credits, aligned to an NQF Level 5 Qualification. - Please click on this link to view my entire HyperionDev Profile. - Received a Student of the Month Award for my commitment to excellence and continuous improvement. Selected GitHub repos: <i>Web/UI:</i> [1] Hangman Game, [2] Dictionary App, [8] Monty Hall Game, [9] FrontEnd UI. <i>Full-stack/API:</i> [3] GitHub API App, [4] Credential Management System. <i>Java/Back-end:</i> [5] Delivery App, [6] Project Management System, [7] International Space Station.
2022/08–2022/12	Qualifi Level 5 Diploma in Teaching English as a Foreign Language (The TEFL Academy). Classroom TEFL Course Certificate (20 Hours) - TEFL, Teaching Business English (30 Hours) - The completion of my own Japanese Language Studies book (typeset in L^AT_EX), which took 4+ years. Without a doubt, this is the project I'm most proud of!
2018	- Completed Online Courses at Udemy and DataCamp with a strong focus on Python Data Science and Linux Essentials. - Attended PyConZA 2018 in Johannesburg.
2017	- Completed the “Data Science with Python” Track on DataCamp (Certificate Number #13,897). - Completed the 2017 Advent of Code challenges. My Python solutions may be viewed in this repo.
2014–2016	Master of Science in SPACE PHYSICS, North-West University, Potchefstroom. DISSERTATION: <i>Weighing dark matter in brightest cluster galaxies</i> SUPERVISOR: Prof. Ilani Loubser AVG. SCORE: 85%, <i>Cum Laude</i> Awarded as the top achiever on Master's level in the Centre for Space Research (for the year 2016). Academic Transcript
2013	Honours Bachelor of Science in PHYSICS, North-West University, Potchefstroom. AVG. SCORE: 92%, <i>Cum Laude</i> Awarded as the Top Achiever in Honours in Physics.
2010–2012	Bachelor of Science in PHYSICAL AND CHEMICAL SCIENCES, North-West University, Potchefstroom. Majored in Physics and Applied Mathematics 3RD YEAR AVG. SCORE: 95%, <i>Cum Laude</i>

- Awarded as the top achiever in the 1st, 2nd, and 3rd years of the Physics curriculum.
- Awarded as the top student in the Faculty of Natural Sciences for the 1st and 3rd years of study.

2009 | **Matriculated with 8 distinctions from St. Andrew's Private School, Welkom**
National Senior Certificate | **IEB Statement of Results** AVG. SCORE: **89%**

LANGUAGES

ENGLISH: Fluent, Level 5 TEFL Certification. **AFRIKAANS:** Mother Tongue
